SUMMARY

Product Designer and UI/UX Designer with 3 years of practical experience creating user-centered digital solutions for the Egyptian, Gulf, and Western markets. Experienced in designing complex Enterprise Resource Planning (ERP) systems, E-commerce platforms, and dashboards. Skilled in gathering business requirements directly from clients and translating them into functional, easy-to-use interfaces. Strong background in collaborating with development teams to ensure smooth developer handoff and successful product delivery.

EDUCATION

Faculty of Computer and Information – Tanta University **September 2022– July 2026**
Bachelor of Computer and Informatics
Major: Computer Science (CS)

Digital Egypt Builders Initiative (DEBI) **April 2024 - October 2024**

- Learned the fundamentals of UI/UX design and applied them in real-world projects.
- Developed and enhanced soft skills, including communication, teamwork, and problem-solving.
- Gained hands-on experience with design tools like **Figma**, **Adobe XD**, **Photoshop**, and **Illustrator**.

WORK EXPERIENCE

- **Product Designer** **March 2026 – Present**
  OptiFlow Solutions – (On-site, Full-time) | The 5th Settlement, Egypt
  - Working directly on "ERPNext" product enhancements, conducting UX audits to identify areas for improvement and align the system with client workflows.
  - Designing end-to-end user experiences for E-commerce platforms for well-known brands.
  - Meeting with clients to gather requirements, transforming them into practical design solutions that balance business goals with user needs.

- **UI/UX Team Lead & Designer** **August 2023 - April 2026**
  Mega DEV – (On-site, Full-time) | Tanta, Egypt
  - Designed a comprehensive custom ERP system covering multiple modules: Accounting, Inventory, Production, Sales, and Purchasing.
  - Led a team of 5+ UI designers, providing guidance and ensuring design quality across various projects.
  - Acted as a bridge between clients and the development team; gathered requirements, analyzed business needs, created designs, and followed up on the development process until final delivery.
  - Presented designs to clients, secured approvals, and maintained clear communication throughout the software development lifecycle.

- **UI\UX Designer** **January 2025 - January 2026**
  Daily Techno – (Remote, Part-time) | Alexandria,Egypt
  - Designed targeted landing pages, customized websites, and E-commerce platforms primarily for clients in the Gulf market.
  - Focused on creating functional interfaces that improve user engagement and align with marketing objectives.

SKILLS

- **Design:** UI/UX Design, Product Design, Wireframing, Prototyping, UX Audit, User Research, Responsive Design.
- **Tools:** Figma, Adobe XD, Photoshop, Illustrator.
- **Business & Soft Skills:** Requirement Gathering, Client Communication, Business Analysis basics, Team Leadership, Developer Handoff.

PROJECTS

- **IDIF ERP System** | Behance: ERP Inventory Module
  - Currently live custom ERP system powering daily operations for a Saudi manufacturing factory.
  - Gathered business requirements and analyzed complex factory workflows through direct client meetings.
  - Designed role-based UI/UX for 5 core modules: Accounting, Multi-branch Inventory, Production, Sales, and Purchasing.
  - Created practical user flows for real-time raw material tracking and order execution across branches.
  - Delivered an Admin Dashboard for stakeholders to monitor real-time profits, losses, and overall performance.

- **Hakeem Healthcare App** | Behance: Hakeem App
  - Currently live on iOS and Android, actively serving the healthcare markets in Egypt and Saudi Arabia.
  - Conducted comprehensive market research and competitor analysis (e.g., Vezeeta) to identify UX gaps and opportunities.
  - Designed an intuitive patient interface to easily browse hospitals, filter by medical specialties, and select providers.
  - Created a seamless, end-to-end booking flow supporting both online video consultations and in-person clinic visits.

- **Shipyra Logistics System** | Behance: Shipyra
  - Designed an integrated logistics platform (Dashboard & Mobile App) for the Saudi market, managing deliveries for major E-commerce partners like Amazon and Noon.
  - Created an automated dashboard to seamlessly receive incoming orders and track shipments in real-time.
  - Engineered a smart geographical dispatching flow that automatically assigns orders to available drivers based on their live locations.
  - Designed a fast, user-friendly driver mobile app displaying clear buyer details to ensure quick and efficient order fulfillment.

- **Brillanza Event Management** | Website: Brillanza
  - Designed a premium event organization website tailored specifically for the Saudi market.
  - Closely aligned the UI/UX with the client's core brand identity, creating a cohesive, high-end digital presence that reflects local cultural aesthetics.
  - Structured the interface to elegantly showcase event portfolios and services, ensuring a seamless and engaging browsing experience for prospective clients.
